

KuriosIT : your MSP partner for manufacturing and pharmaceuticals

About us

At KuriosIT, we support manufacturing and pharmaceutical companies in managing and optimizing their IT infrastructure through our managed services (MSP). We understand the specific challenges of these sectors, and offer tailored solutions to ensure security, performance and compliance with current standards.

Proactive monitoring and management of IT infrastructures (servers, networks, workstations)

Advanced security: protection against cyberthreats, automated backups

Dedicated technical support and incident management with rigorous SLA commitments

Ongoing system optimization to improve productivity

Strategic support for IT governance and technology project management

Why choose KuriosIT?

Sector expertise in manufacturing and pharmaceuticals

Personalized, human approach with a dedicated account manager

Turnkey service for worry-free IT management

Reduced downtime and optimized IT costs
